## ON THE WAR-PATH.

An East Side Husband Looking for Gore.

## JEALOUS OF A PRETTY WIFE

A Rather Peculiar Case—The Officers on the Lookout to Prevent Serious Trouble.

The authorities of the East Side are considerably worked up over an anticipated sensation. The sensation has not yet reached a climax and may never reach that interesting point, but it is a good story as it now stands, and as sharp-eyed officers have spent many hours watching the would-be slayers there can be no harm in telling it.

From inside sources the romance is something like this: Two years ago a handsome young couple, who had just sworn in the presence of a few friends of their respective families and a solemn-faced preacher to love, honor and obey and cast side glances at one other man or woman, took up their residence as lodgers with a couple equally attractive and new in the troubled seas of matrimony.

For a time the quartette got along swimmingly, but the landlord came in late one night, and for some reason he got it into his head that his male roomer was intruding on his preserves. A small scuffle took place there, and then the landlord convinced her lord and master that their male lodger was thoroughly devoted to his own wife and would not for the world make love to any other.

The man had to be satisfied, but a suspicion still lingered in his bosom, and he made up his mind to watch and wait. How close he watched is not known, but he waited some time, for nothing more was heard until a few days ago when he appeared on the streets in an excited state of mind bordering on insanity, and in language unfit for publication he announced that the streets of East Los Angeles would be filled to overflowing with human blood before sunrise.

As usually the case when a man announces on the street corners that they propose to slay their fellow-men by the wholesale, the angry landlord looked up a saloon and proceeded to drown his sorrows in sight of the public. A few hours later or two he put in an appearance on the war-path in such a state that it was impossible for him to have recognized his grandmother at a distance of three feet from his nose.

He ranted around the streets until his landlord was looking for him, so he went off and armed himself to the teeth, and the officers expected every moment to see the two men come together, but fortunately they failed to meet and the Coroner made no report, and the newspapers were cheated out of a sensation that would have proved a dud.

The row is not over, however, and a regular old mining-town duel is liable to take place any moment and the landlord is still on the war-path and the roomers have not yet got out of the quarters.

All parties connected with the affair, except the angry landlord, claim there is no foundation whatever for his capers, and when his back is turned they are as friendly as possible.

The officers are still on guard and will prevent trouble if such a thing is possible.

## JOSETTE AT HOME.

The Thirteen-year-old Runaway Tells of Her Travels.

Jolette Bolso, the thirteen-year-old girl who eloped from San Francisco with a waiter named Pierre Canton several weeks ago, and came to this city, but afterward went to San Diego with her lover, where she was arrested and sent home, arrived at San Francisco last Tuesday, and gave the following account of her trip to an Examiner reporter:

"I did not notice Canton at first at all, and probably would never have exchanged a word with him if it had not been that I went to the restaurant one day for dinner. Then he made a number of passes to me. After that he always spoke when we met, and in time we became quite friendly."

"My aunt, you know, keeps lodgers, and after Pierre came to San Francisco with me he took a room in our house. My aunt at times ill-treated me and Pierre used to console with me. He told me that if I would marry him he would take me far away and we would be happy. I refused to listen to him until June 13, when my chaperone said I was nearly dead. When I told him of what happened he suggested that I sleep with him and get married. I was angry at the time and consented to leave with him."

"We took the night train to Sacramento, and the next day left for Los Angeles. Pierre has friends there, and he readily found a home for me with them. He tried to get out a license to marry me, but couldn't, as I was too young. He then went to San Diego, and a few days later telegraphed to me to join him there. I took the next train, and we again sought to get married. We could not secure a license and the lawyers told us that we could not go to sea and be married by a captain as I did."

"Pierre then learned that the police were looking for us, and he fled from San Diego. He said he was going to Mexico, and would send for me as soon as he got settled there. I did not hear from him again, for the next day Detective Russell, who had received a telegram from Detective Anthony, arrested me."

Detective Russell placed Jolette in charge of the captain of the steamer Corona, who took her to San Francisco all the way up, as she threatened frequently to jump overboard and drown herself.

"I was only fooling them," said Jolette yesterday, "for what good would it do me to drown myself. Yes, I am willing to go back to San Francisco and get married, and live with him until I love him."

"Do you still like Pierre?" was asked.

"Yes," replied the girl, "but I don't think it was nice of him to run away from me. Still I want to marry him. I'll marry him if I can get a license."

Pierre will never make Jolette his wife. Mrs. Villemire has anything to say about the matter. She is still undecided whether the will have the girl sent to the Magdalene Asylum or return her to France, where her parents are.

Jolette vows she will never again attempt to run away.

"Once is enough for me," said she, "and I heartily wished that we had reached Sacramento before I got back home with my aunt. I was angry when I left her, but did not realize that I was doing wrong until it was too late. I was so seashell coming back on the steamer I thought I would die. But I suppose that was only a just punishment for my evil doing," she concluded, with a air of resignation.

## Porque?

LOS ANGELES, Aug. 6.—[To the Editor of THE TIMES.] In discussing the school question last evening, this pertinent inquiry was made: "Why is it that two of the city teachers of the same family, whose home is in the northern part of the State, are principals of two of the leading schools?"

It is not the principal enough for a family? The questioner stated that he had spoken to several teachers in regard to this discrimination, but they thought it was probably for services well rendered, but admitted there were other first-class teachers not so thoughtfully rewarded. One allowed, however, that the ladies in question were great friends of the Deputy Superintendent's family. On thinking the matter over it does not seem fair that the salary of these two sisters should monthly aggregate \$250, as it did last year, or \$215 or \$220 as it will this year in the face of the reductions that were made in the salaries of

others who are working singly. I understand that a few of the teachers hold primary certificates, the lowest issued, while the majority have grammar grade certificates, the highest obtainable. The best positions are as often secured by the teacher with the lowest grade certificate, and I am also informed that one of these ladies is a principal in another of the city schools. Is this just to those who have devoted three or four years in preparing for their work? There is no incentive for the primary certificate holder to study up.

## WATER FOR THE HILLS.

THE SUPPLY IS AMPLE FOR ALL PURPOSES.

Looking Into the Affairs of the Citizens' Water Company—A Thorough Investigation to be Made.

Although the hill districts now have a plentiful supply of water, the arrangements with the City Water Company are only temporary, and the people who are interested do not propose to stop the agitation until a thorough investigation of the affairs of the Citizens' Water Company is had, and they find out just what the status of that corporation is. Councilmen Innes and Maxwell and Director-General Davis at Chico.

"It seems outrageous to me that when there is nothing in the way of Shorb's confirmation Gen. Davis should still hang back and refuse to appoint him. Shorb has plucked up his courage and I am sure that the minute the Director-General names him he will be confirmed by the local board of directors and also the board of control.

"I do not believe any men ever made a more persistent, honest fight than J. D. Barth Shorb's friends have made. No stone unturned has been spared to get the name of the State even in any way interested in horticulture or viticulture has been appealed to, and in every instance Shorb has been endorsed. Never were the men who have been in the service of the State so openly refused to give Shorb his vote, and I saw that man today at the meeting of the Alameda County World's Fair Association in Oakland. I did not know the individual but who ever would have thought that he would never be elected. Shorb. He did not vote no," however, so the resolution carried without a dissenting voice. I have seen one other who is not out and out Shorb's friend, and that one is James D. Phelan, who is a member of the California State Legislature.

"It is stated that Mr. Wicks regularly paid him with the interest on his bonds, and is endeavoring to get matters in shape, in the meantime promising the consumers that he will do his best to furnish an ample supply of water for all purposes. Meanwhile, the investigation is proceeding as rapidly as circumstances will permit, and the disclosures so far make very interesting reading. It appears that Mr. M. J. Wicks took charge of the plant, was bonded for \$200,000. Of this amount Mr. Wicks took one-half, which are held by his wife's name, Mr. Ruddock, a capitalist who died a year or two ago, took \$55,000 bonds, and the other \$145,000 were taken by Mr. Wicks. The other bonds are presumably taken in smaller quantities by a number of persons, but as Mr. Wicks was not in his office yesterday the list could not be obtained. It is stated that Mr. Wicks regularly paid him with the interest on his bonds, and is endeavoring to get matters in shape, in the meantime promising the consumers that he will do his best to furnish an ample supply of water for all purposes.

## PLAIN TALK FROM A. T. HATCH

He Says There Has Been a Trade Between De Young and Davis.

The Terms of the Deal.

Latest information from Chicago received in this city is to the effect that Shorb is steadily gaining ground, and that if Director-General Davis could be induced to send in his name for the place, he would at once be confirmed as chief of the horticultural bureau of the World's Fair. Even Gen. Davis can offer no objection to Mr. Shorb, personally, for the place, and has not done so, but merely declines to send in his name. The following interview with A. T. Hatch of Suisun City, and published in the Examiner of Wednesday, confirms the above statement, and gives some interesting inside information:

"I have just received an important letter from Chicago which convinces me that the only men against Shorb are De Young and Maxwell, and Director-General Davis at Chico.

"It seems outrageous to me that when

there is nothing in the way of Shorb's confirmation Gen. Davis should still hang back and refuse to appoint him. Shorb has plucked up his courage and I am sure that the minute the Director-General names him he will be confirmed by the local board of directors and also the board of control.

"I do not believe any men ever made a more persistent, honest fight than J. D. Barth Shorb's friends have made. No stone unturned has been spared to get the name of the State even in any way interested in horticulture or viticulture has been appealed to, and in every instance Shorb has been endorsed. Never were the men who have been in the service of the State so openly refused to give Shorb his vote, and I saw that man today at the meeting of the Alameda County World's Fair Association in Oakland. I did not know the individual but who ever would have thought that he would never be elected. Shorb. He did not vote no," however, so the resolution carried without a dissenting voice. I have seen one other who is not out and out Shorb's friend, and that one is James D. Phelan, who is a member of the California State Legislature.

NOTES OF THE DAY.

HOLLAND has a new cabinet. It is

SOFIA is disturbed by war rumors, but they lack confirmation.

CALIFORNIA fruits continue to go off in Chicago like hot cakes of a frosty morning.

The speech of Maj. McKinley at Lakeside contains some very beautiful tariff reading.

The Agricultural Department is camping on the trail of the California locusts.

The new Commander-in-Chief of the Grand Army of the Republic, elected yesterday, is Comrade John Palmer of New York.

KANSAS is reported very prosperous. This will be bad for the alliance politicians, who flourish on locusts and wild-eyed drouth.

The able editor of the San Bernardino Courier rises up in his wrath and suffers him to speak of "the infamous McKinley Tariff Bill." We take leave to commend the Major's able speech to the able, but exasperated editor.

Prince George of Greece, the Czarevitch and the Japanese policeman who was handy with his club, are now the questions which threaten to disrupt the Graco-Russian entente cordiale and send the *causus belli* to the front and center with his war-paint on.The old Pensacola has arrived at San Diego on her way from Iquique to Mariana Island, and the San Diegans are going about with their thumbs in the arm-pits of their "west-kits" and their sombreros elevated on their *cabeces* at an angle of forty-five and three-quarters degrees.

The early establishment of an iron plant in San Diego seems to be a settled thing, though the site has not been selected. At least forty acres of land is required in one body. The Sun says:

Dr. Perkins has had a conversation with Mr. Perkins of the Baker Iron Works of Los Angeles relative to the manufacture of cast iron pumps, and Mr. Perkins was so favorably impressed with what the Doctor told him that it is more than likely that something substantial will result.

An alliance crank in Shawnee county, Kan., opposed the purchase of a flag for the schoolhouse in his district on the ground that it was too common. "It is carried," he said, "by every picnic crowd; it is seen everywhere on the Fourth of July; it is raised over every political convention and floats over every drunken brawl. It would be to recall the scandals of the San Francisco department six or eight years ago. The disgraceful disclosures of that time were calculated to make any honest-minded man shudder. As the affairs of the department were presented, intend to co-operate with them, it is perfectly sure that several States will be carried for the Alliance, rendering it impossible to make the public, that is all they care for.

If one cares to see what a public school system thus thoroughly prostituted by ward politics leads to, he has but to recall the scandals of the San Francisco department six or eight years ago. As the affairs of the department were presented, intend to co-operate with them, it is perfectly sure that several States will be carried for the Alliance, rendering it impossible to make the public, that is all they care for.

The efficiency of the school system is one of the least considerations that enters their minds, and if only they maintain an outward semblance of propriety, which satisfies the public, that is all they care for.

## TAR AND FEATHERS.

A Priest in the Hands of an Angry Mob.

Daring Attempt of Nevada Convicts to Regain Liberty.

Two Highwaymen Again Rob That Unlucky Redding Stage.

The Cruiser Charleston Goes to Mare Island for Repairs—A Disgraced Officer's Suicide at Sea.

By Telegraph to The Times.

SEATTLE, (Wash.) Aug. 6.—[By the Associated Press.] Father Quay, a Catholic priest of Spokane, was tarred and feathered by a mob this morning. Between midnight and 1 o'clock citizens effected an entrance to his residence, dragged him from his bed and applied a complete covering of tar and feathers. The priest fought desperately with his tormentors but was finally overcome.

He is accused of enticing children of both sexes into his room and there practicing various forms of immorality after stupefying them with liquor. It is said that he was removed from his charge at St. Thomas, N. D. for similar practices.

TRIED TO BREAK JAIL.

A Daring Plot Among Nevada Convicts Frustrated.

CARSON (Nev.) Aug. 6.—[By the Associated Press.] The fact has just come to light that a scheme for a general break was concocted by the inmates of the State prison on Sunday. Jerry Piper, a cage guard, was called by some prisoners to the door leading from where the convicts are allowed to congregate on Sunday. Piper went to the door, when Hutchinson, one of the robbers recently sent from Dayton, and Grant, the Eureka convict, suddenly put their hands through the grating, grabbing Piper by the shoulders.

Piper, who is a strong man, braced his feet against the cell door and resisted with such strength that he managed to free himself from the desperate men and gave the alarm. Upon examination a big gag and several files were found in possession of Hutchinson, Grant and others. The prisoners intended to gag Piper and file their way through the doors and make a break for liberty.

A STAGE ROBBED.

Two Highwaymen Make a Small Haul.

REDDING, Aug. 6.—[By the Associated Press.] On Tuesday evening when the outgoing Redding and Big Valley stage was about three miles from town it was stopped by two highwaymen. The robbers demanded the express box from which they secured about \$50. The one passenger aboard was robbed of \$12 and a silver watch.

The stage then proceeded and no news was brought into town until the next morning when an incoming stage arrived. The robbers had dashed the express box but did not touch the mail bags. Officers are in pursuit, but nothing has yet been heard of the robbers.

The Deadly Thrashing Machine.

HEALDSBURG, Aug. 6.—A threshing machine boiler exploded near this city today, and Frank Rippey of Lake county received injuries from which it is thought he cannot recover, and J. P. Crocker was severely, though not fatally, scalded. Several horses were also badly scalded. The explosion was caused by a defect in the boiler. Engine and boiler are a total wreck.

A British Officer's Suicide.

SAN FRANCISCO, Aug. 6.—Second Lieut. Philip J. Hodges of H. M. S. Ring Dove, jumped overboard from the steamship Alameda July 14, shortly after leaving Sydney. Hodges had been suspended from duty for one year on account of a breach of discipline, and was on his way to England.

The Cruiser Charleston.

SAN FRANCISCO, Aug. 6.—The cruiser Charleston left here today for the Mare Island navy-yard, where, if urgent orders are received, the vessel's bottom will be cleaned.

Burned by Lightning.

SALEM, (Or.) Aug. 6.—Wednesday, near Monmouth, lightning struck the barn of James Helmke and the entire structure was consumed with forty tons of hay and a farm horse. A young man named Doolittle was stunned, but recovered.

HEAT AND HUNGER.

Gaunt Famine Stalking Through India's Torrid Districts.

MADRAS, Aug. 6.—By Cable and Associated Press.] Though the monsoon set in some time ago in some parts of India, dispelling all fears of failure of crops in that portion of the country where rain had fallen, there has been no rainfall in the Chingle, Put and North Arcot districts in this presidency, and all hopes of averting famine are abandoned. The heat is unprecedented. Standing grain and other crops have succumbed to the long drought, and all are withered and burned. Already the effects of the scarcity of food are being felt, and there is great suffering among the inhabitants of the districts. Many deaths from starvation have been reported. It is almost impossible to get food for cattle and horses, cows, dogs, and other live stock are dying in large numbers everywhere in the districts.

BARRUNDIA'S DEATH.

Report That It Has Cost the United States \$50,000.

ST. LOUIS, Aug. 6.—[By the Associated Press.] A dispatch from the City of Mexico says: "The Diario de Centro America, printed in Guatemala, claims that the family of the unfortunate Gen. Barrundia, who was killed aboard a Pacific Mail steamship, in the port of San José de Guatemala by soldiers, has won its claim against the United States and will be paid \$800,000."

Trouble for the Atchison.

TOPKA, (Kan.) Aug. 6.—The strike of 400 boilermakers in the shops of the Atchison road is spreading to other departments. Today several black-

smiths struck in sympathy. One of the engineers refused to take out his train for the reason that the boiler of his engine had not been inspected before being ready for the run. If other engineers take this as the cue, the Santa Fé will have serious results.

Boston's Property Attacked.

BOSTON, Aug. 6.—United States Deputy Marshal McDonald attached the property of the city of Boston this afternoon for \$70,000. The suit is an action brought by W. A. Birkill and others, citizens of New York. Nothing in regard to the nature of the case is learned, except that it is on account of some infringement of patent right. A similar attachment for the same parties for \$70,000 has been placed on the property of Cambridge.

## A TERRIBLE WRECK.

### Collision Between Trains in New York.

A crowded smoking car smashed to pieces with its occupants.

A dozen passengers, mostly Italians, instantly killed.

Conflicting Accounts as to the Cause of the Disaster—List of the Killed and Injured.

By Telegraph to The Times.

SYRACUSE (N. Y.), Aug. 6.—[By the Associated Press.] This morning a freight train on the West Shore Railroad, going west, broke in two between Port Byron and Montezuma, and the first train following crashed into the rear. A brakeman went back toward the passenger train but the night was so foggy that he was not seen.

The fireman of the passenger train and ten Italians en route to Niagara Falls in the smoking car were killed and eleven others in the same car were injured, two afterwards dying.

The injured were brought here and are being cared for. The bodies of the killed are at Port Byron, where the Coroner will hold an inquest. Among the injured was a member of an opera company, who died on the way here. The trainmen say that more killed are in the wreck. Physicians and others were sent from Syracuse, Auburn, Montezuma and Port Byron. The scene at the wreck was a terrible one.

THE KILLED AND WOUNDED.

The following is a revised list of the killed and injured:

Killed: Carrillo Alfonso, Coco Roca, Vincenzo DiLavei, Domenico Richi, Thomas Merello, John Rosia, Giacomo Santelli, Antonio Umberto, John G. Gatti, one unknown, all being Italians and all adults; Fireman Michael Bingen, Macdon, N. Y., instantly killed; Antonio Umberto, died after removal to the House of the Good Shepherd; Joseph M. Keenan of St. Louis, died at the House of the Good Shepherd.

Injured: Patrick Ryan, engineer of the express train, lives in Buffalo; Louis Dillar of Alsace-Lorraine, A. K. Louvas, a Hungarian; John Schultz, a member of the Uncle Isaac Farce Company of Easton, Pa.; George H. Saxby of Hamilton, Ont.; John Preston of Troy, N. Y., a railroad man; Julius Myers of Buffalo, N. Y.; B. E. Petts, musical director of the Uncle Isaac Company; Casella, a Cuban; Libiz, Henry Trapani, Giuseppe Masiocci, Goranni Rosi, Nicolo Machini, Tommaso Tonzano, Luigi Donaro, all Italians; an unknown Hungarian and Antonio Cabello, an Italian; all of the above were taken to the House of the Good Shepherd; R. K. Serviss of Newark, N. Y.; Lewis Taylor of West Point, N. Y., and Frank J. Zinter of this city were removed to their homes.

Of the Italians injured four will probably die. They were in the smoking-car of the St. Louis express, which crashed into the freight train. Twelve cars of the freight train were wrecked and piled upon the tracks, completely blocking the road. The whole piece of timber is left in the smoking car. The wreck took fire, and the passenger train burned, with the exception of three sleeping cars. The train was made up of two express, baggage and smoking-car, day coach and four sleeping-cars.

STORY OF A PASSENGER.

J. J. Sullivan of this city was on the train. He was in the car behind the smoker. Regarding the accident, he said: "The freight train with which our train collided was running on passenger train time. When the crash came, I was in the rear of the car. The smoking-car was smashed to splinters, and the shrieks of the wounded imprisoned in the wreckage were heartrending. It was about 3 o'clock when the wreck occurred. When I left, the dead and wounded were scattered about on the ground between the tracks, and passengers were doing all they could for the relief of the wounded victims. So far as I could see they were all men who were in the smoking car. None of the passengers in the sleeping car were injured."

John F. Bowditch of Boston, who had a narrow escape, gave a similar account of the accident. He said no one in the rear of the wreck was injured. Attendants of the express and baggage cars had retired to the rear coaches to catch a little sleep, and the entire fatality, therefore, was confined to the smoking car and locomotive.

A CONDUCTOR'S ACCOUNT.

Conductor Kanaly of the limited said: "I was in front of the sleeper Marthon and had just noticed that we were making the usual running time. We left Syracuse at 1:58 on time. The train was heavily loaded, each of the sleepers having about twenty passengers. It was very foggy and the angle of cold wind expected the Montezuma side track would be all right for the train.

The first intimation I had of the accident was when I felt the sudden application of the air-breaks. A moment later came the crash. That is about all I can tell except that the engine went clear through the caboose of the freight train and then rolled down the embankment. The day coach telescoped the smoking car, and when I got out of doors they were all mixed up with the express and baggage cars. The sleeper did not leave the rails."

NEW YORK, Aug. 6.—A West Shore official says: "From what we learned here is not the doubt that the accident this morning was the result of neglect. The conductor of the freight train sent back a flagman to warn trains moving on the same track."

SYRACUSE, Aug. 6.—The jury returned a verdict finding Conductor Tobin and Flanagan guilty of criminal negligence. Both men have fled. Antonio Ambello, one of the injured Italians, died at the hospital to-night, making the total killed thirteen.

German Society Officers Chosen.

DENVER, Aug. 6.—The Plate Deutsche Verein elected officers as follows: President, Martin Bosse, Kansas City; vice-president, E. M. Hein, Grand Island, Neb.; secretary and treasurer, I. P. Lunt, Omaha. The next meeting of the society will be Grand Island, Neb., in August, 1892.

The Davis Will Contest.

BUTTE (Mont.), Aug. 6.—The testimony of the witness Steckel was continued in the Davis case today. He detailed the peculiarities of the handwriting of James Eddy, the supposed forger. Attorney Jaques of Ottumwa,

Iowa, was examined, testifying as to the signatures of James Davis, one of the alleged witnesses of the alleged will, which he maintained was not his, and gave reasons why he thought so.

### BASEBALL.

Results of Yesterday's Games in the East and West.

NEW YORK, Aug. 6.—[By the Associated Press.] The home club won the game in the tenth inning after a spirited contest. Score: New York, 8; Pittsburgh, 6.

PHILADELPHIA, Aug. 6.—The home team were comparatively easy winners today. Score: Philadelphia, 4; Cincinnati, 1.

BOSTON, Aug. 6.—Both pitchers did splendid work for twelve innings. Score: Chicago, 3; Boston, 2.

BROOKLYN, Aug. 6.—The bunched hits of the home club won today's game. Score: Brooklyn, 5; Cleveland, 3.

ST. LOUIS, Aug. 6.—St. Louis, 5; Athletics, 7.

NEW YORK STOCKS AND BONDS.

NEW YORK, Aug. 6.—MONEY—On call, easy; closing offered at 2 per cent.

PRIME MERCANTILE PAPER—5% at 7%.

STERLING EXCHANGE—Weak; 60-day bill, 4.83%; demand, 4.85%.

NEW YORK, Aug. 6.—The stock market today was dull but active, displaying a firm tone throughout the greater part of the day. There was a rush to sell Union Pacific, at the opening, and large blocks changed hands, the first price being 37%, from which it declined to 36%, but received considerable support around 37 for the time, but when this was withdrawn the stock fell to 35%. In the meantime, the rest of the market, of which Burlington and St. Paul were the principal part, showed a strong tone and advanced fractionally. In the last hour Union Pacific nearly recovered the day's loss, and St. Paul, Burlington, Rock Island and others were specially prominent in the upward movement. The market finally closed active and strong at top figures. The final changes show small gains in most stocks. Sugar is up 2%; Chicago Gas and Union Pacific, however, lost 1 per cent each.

Government bonds were steady.

Why the Southern Pacific is Waking Up.

## SOME SPIRITED COMPETITION

Santa Fe Getting Ready for a Campaign—Work Up about Fresno—Official Amenities—General and Local.

The inside information about the intentions of the Southern Pacific Company in connection with movements now going on at Santa Monica, which was published in THE TIMES of Wednesday, made clear much of the speculative doubt indulged in heretofore. That the company intended to do more than build a spur track up the beach to a suitable location for a wharf many people were convinced, and when it was learned that the object was to extend the road on up the shore to a connection with the present road near Hueneme, the maneuvering was readily understood. There is only one narrow strip of territory along the coast between Santa Monica and Hueneme that is available for railroad building, and the first to take possession of it will doubtless hold it against all comers. It has been known for some time that Hueneme was to be one objective point of the Los Angeles and San Joaquin line, and it is not difficult to run a line up the coast toward Ventura. The Southern Pacific had a double incentive for occupying this territory. The Santa Fe is creeping up toward San Francisco, and with the two independent lines from Mojave to the metropolis of the State, with a competitor in the field which has so long been monopolized by the Southern Pacific, that company will bestir itself to complete certain work begun some time ago, but perhaps not of just the stimulation as is now about to be ministered. The coastline from Los Angeles to San Francisco which will become so popular for passenger traffic that it will attract all through travel from the present line, will be even more independent lines from the San Joaquin, and will, I think, become an accomplished fact at an earlier day than it would in the absence of competition and threatened invasion by another corporation. Trace the new line upon the map and its importance and desirability will be self-evident.

A colored infant was left at the residence of Mrs. Clarissa Scott, No. 2742 Hylands street, Wednesday night, between 11 and 12 o'clock. A note was pinned to its clothing saying, "Please take care of this baby, it is a good parentage." Mrs. Scott yesterday reported the case to Chief Glass. In the meantime she is caring for the wif.

Major Hazard has filed with the Clerk of the Council his report of the referee in the matter of the opening and widening of Avenue A, and the amount of the assessments, of which the property owners raised \$1500 and the city gave \$500. The report shows the disposition of the money. The approval of the report by the Council will settle the entire matter.

Youth Luckenbach, who was to have been married yesterday for disturbing the peace of Lavina Hoffman by attempting to assault her, as she charged, in the Sixth street Park some days ago, to which charge he pleaded guilty, has changed his mind, and by his attorney, withdrew his plea of guilty and entered a plea of not guilty. Hearing was set for the 14th inst.

E. C. Kichey, a blackman, was arrested yesterday on complaint of R. J. Granfield on a charge of assault to murder. Granfield is the man who was cut a fight at the Old Vienna Buffet corner several nights ago. Kichey denies it. Granfield, however, has said that a great number of him and his friends have been assaulted and he intends to swear out complaints against them. He gave bond for his appearance.
